The Rise of Julius Caesar
Chapter 34

Before becoming a leader in Rome, Julius Caesar was a consul in Spain.

Julius Caesar became a consul of Rome, so now there were three, not two. They were called the Triumvirate.

Julius Caesar did not listen to the Senate. They thought he wanted to be king, and they didn't like him. But the people of Rome did like him.

Julius Caesar was kidnapped by pirates, held for ransom, and when released went on to defeat them.
